## TELFORD 25 HEADREST SEAT

The Telford Headrest Seat raises passenger comfort still further. Style and comfort combined with the strength of a steel frame give durability even when used on the most demanding urban bus routes. In fact it's another '*Fit and Forget seat*' from our comprehensive range.

The side grab handle is made from moulded PU and has an internal wire frame to give strength with a comfortable feel. It can be moulded in almost any colour to match the vehicle trim. A standard down pole clamp can be mounted vertically.

The Telford 25 comes with moulded ABS back panels available in most standard colours with the option of a through or standard back (as shown).

Strong stylish wavy pedestals and body-side brackets are manufactured and polyester powder coated in house to suit customer and vehicle requirements.

As with all the Telford range of seating the trim can be removed in seconds to reduce maintenance time enabling the vehicle to operational for longer periods.

A range of built-in and rear five seats are produced to match the Telford 25 contours.

### Options

- Moulded anti-vandal mesh cushion and squabs.
- Hip restraint armrest.
- Single seat.
- Lap belts.
