TELFORD 30 ROUND HEADREST SEAT

The Telford 30 Round Headrest Seat provides increased passenger comfort. Its elegant lines, generous proportions and strength of a steel frame give durability even when used on the most demanding urban bus route, naturally because it's from our 'Fit and forget' range.

The distinctive rounded headrest has an integral grab handle made from moulded PU and has an internal steel frame to give strength with a comfortable feel. The grab handle can be supplied in almost any colour to match vehicle trim and a standard down pole clamp can be mounted as shown.

The Telford 30 comes with moulded ABS back panels available in most standard colours with the option of through or standard backs (as shown).

Strong stylish wavy pedestals and body-side brackets are manufactured and polyester powder coated in house to suit customer and vehicle requirements.

As with all the Telford range of seating the trim can be removed within seconds to reduce maintenance time enabling the vehicle to be operational for longer periods.

A range of built-in and rear five seats are produced to match the Telford 30 contour.
