TELFORD 40 SEAT BELT SEAT

The Telford 40 Seat Belt Seat has been developed exclusively for seat belt use. It comes fitted with three point retractable seat belts and comfortable moulded foam headrests trimmed to match the seat. The seat belt retractor reel is tamper-proof and totally concealed within the body of the seat.

The Telford 40 uses the proven Telford 20 steel frame which gives durability even when used on the most demanding urban bus route because of course it's from our versatile 'fit and forget seat' range.

The side grab handle is made from moulded PU and has an internal wire frame to give strength with a comfortable feel. The grab handle can be moulded in almost any colour to match the vehicle trim and a standard down pole clamp can be mounted vertically.

The Telford 40 comes with the new diamond moulded ABS back panels available in most standard colours. Strong stylish wavy pedestals and body side brackets are manufactured and polyester powder coated in house to suit customer and vehicle requirements.

As with all the Telford range of seating the trim can be removed within seconds to reduce maintenance time enabling the vehicle to be operational for longer periods.

A range of built-in and rear five seats are produced to match the Telford 40 contour.

Options

- Moulded anti-vandal mesh cushions and squabs.
- Hip restraint armrest.
- Single seat.
- Self Adjusting Belt.
